Professional Summary

A highly motivated junior developer with a passion for web design and willingness to learn new skills and help people with what I know. I prioritise resourcefulness and working with efficiency since time is the most valuable thing, we have on planet earth.

Education

Computer Science & Information Technology:

Durban, South Africa

Richfield Graduate Institute of Technology [currently doing second year]

Experience

Breeze Kids Academy

Dec - 2021

Logo Design

- I was responsible for designing and creating the logo of a local creche, Breeze Kids Academy.

Projects (check portfolio in above link)

NFT Dashboard

- This is a design project that I made with an NFT themed looks and responsiveness on all devices
- The site makes use of CSS grid, keyframes and some JavaScript.

Technical Skills

Proficient: [Html, CSS, JavaScript, bootstrap, jQuery]

Familiar: [Node js, git, React, Npm]
