Professional Summary

A highly motivated junior developer with a passion for web design and willingness to learn new skills and help people with what I know. I prioritise resourcefulness and working with efficiency since time is the most valuable thing, we have on planet earth.

Education

Information Technology: Durban, South Africa Richfield

Graduate Institute of Technology [currently doing second year]

Experience

Breeze Kids Academy   Dec – 2021 & Feb-2022

Website Design & Creation

- I designed & created the website for this local creche from the ground up

Logo Design

- I was also responsible for designing and creating the logo of Breeze Kids Academy.

Projects (check portfolio in above link)

Breeze Kids Academy Website

- My first ever official project for a client who owns a local creche
- The site makes use of CSS grid, flexbox, API, jQuery, keyframes and some JavaScript.

Technical Skills

Proficient: [Html, CSS, JavaScript, bootstrap, jQuery]   **Familiar**: [Node js, git, React, Npm, APIs]
